VERSION 1.1

EHPU

ELECTRO-HYDRAULIC POWER UNIT

HIGH VOLTAGE | HEAVY-DUTY
SMART HYDRAULIC STEERING UNIT

Onboard pressure transducers
200vDC to 800vDC

EHPU

HIGH VOLTAGE | HEAVY-DUTY
ELECTRO-HYDRAULIC POWER UNIT

The **Hydrapulse® EHPU** is a rugged smart motor package that includes functionality specifically designed around increasing efficiency in hydraulic applications, and simplifying the transition to EV and Hybrid platforms.

The EHPU is available in high voltage (200 – 800VDC) for your EV or HEV chassis integration. The EHPU comes with a standard SAE Mounting interfaces for ultimate flexibility in pump selection and integrated pressure sensors for standalone pressure control modes of operation. call our engineering team to discuss custom options for mounting or output interfaces.

FEATURES

With our integrated cooling, power electronics, motor, and pump, the Hydrapulse® EHPU provides the cleanest and most cost effective integration into your chassis, machine, or vehicle platform.

- Onboard pressure transducers
- Power dense permanent magnet motor
- 200vDC to 800vDC
- HVIL connection
- Integrated cooling (no external cooling required)
- CAN / J1939 Communications
- Onboard diagnostics
- Power-on-demand / energy savings
- Complete temperature monitoring

APPLICATIONS

Our high voltage architecture makes the EHPU perfect for any HEV or BEV platform utilizing 200 to 800VDC battery packs. The rugged design of the motor and inverter guarantee a long life in the harshest of environments.

- Auxiliary Hydraulics
- Refuse Truck Applications
- “Idle Free” Auxiliary functions
- Off-Highway Equipment
- Electric Vehicle Steering
- Mining Vehicles
- Airport Ground Support Equipment
- Dump Trucks

DIRECT ACTUATOR CONTROL

The Hydrapulse® Bi-Rotational Pumps allow a system designer to directly control an actuator with proportional speed control in both directions while simplifying the overall system architecture and improving efficiency. The system includes a relief valve to set the maximum system pressure, pressure sensors on each outlet to electronically limit pressures at the actuator, and valves to divert the low pressure return hydraulic oil back through the motor for cooling purposes.

DISTRIBUTED ON-DEMAND HYDRAULIC SYSTEMS

ON-DEMAND CONTROL | MAXIMIZE EFFICIENCY | REDUCE TOTAL COST OF OWNERSHIP | REDUCED DOWN TIME

MOTOR SPECIFICATIONS

EHPU MODEL	EHPU-1-056-350	EHPU-1-056-650
Rated Voltage (Vdc)	350	650
Rated Power kW (HP)	2.5 (3.3)	2.5 (3.3)
Cont Torque Rating (Nm)	5.5	5.5
Peak Torque Rating (Nm)	10	10
Cont. Rated Current (A)	7	3.8
Protection	IP67	IP67
Max Speed (RPM)	4000	4000
Operating Temp.	-40 C to 85 C	-40 C to 85 C
Storage Temp.	-40 C to 125 C	-40 C to 125 C
Weight lbs. (kg)	31.4 (14.2)	31.4 (14.2)

Specifications are nominal and subject to change. Consult Factory prior to ordering.

DRAWINGS

EHSU-1-56-350-U-SAEA

PERFORMANCE CURVES

EHPU-1-56-XXX-U-SAE
Frame Size 1
56 mm motor
350-800Vdc

Temperature = 40° +/- 3°C

Kinematic Viscosity = 28.8 mm²/s (cSt)

*All curves dependant on loading conditions and may vary.

The charts on this page represent expected performance at 350 and 650Vdc Nominal

Motor Torque Ratings

Continous and Peak torque ratings determined using 80° C cooling fluid

Current Draw vs Motor Speed

Current draw at various speeds with motor torque load of about 22Nm of torque

Efficiency

Overall efficiency of motor and inverter, motor running at various speeds at a constant torque load

MOTOR SPECIFICATIONS

EHPU MODEL	EHPU-2-105-350	EHPU-2-105-650
Rated Voltage (Vdc)	350	650
Rated Power kW (HP)	10 (13.4)	10 (13.4)
Cont Torque Rating (Nm)	21	21
Peak Torque Rating (Nm)	30	30
Cont. Rated Current (A)	30	17
Protection	IP67	IP67
Max Speed (RPM)	3500	3500
Operating Temp.	-40 C to 85 C	-40 C to 85 C
Storage Temp.	-40 C to 125 C	-40 C to 125 C
Weight lbs. (kg)	48 (21.8)	48 (21.8)

Specifications are nominal and subject to change. Consult Factory prior to ordering.

WARNING! FAILURE OR IMPROPER SELECTION OR IMPROPER USE OF THE PRODUCTS AND/OR SYSTEMS DESCRIBED HEREIN OR RELATED ITEMS CAN CAUSE DEATH, PERSONAL INJURY AND PROPERTY DAMAGE.

This document and other information from Terzo Power Systems, LLC, its subsidiaries and authorized distributors provide product and/or system options for further investigation by users having technical expertise. It is important that you analyze all aspects of your application, including consequences of any failure, and review the information concerning the product or system in the current product catalogue. Due to the variety of operating conditions and applications for these products or systems, the user, through its own analysis and testing, is solely responsible for making the final selection of the products and systems and assuring that all performance, safety and warning requirements of the application are met. The products described herein, including without limitation, product features, specifications, designs, availability and pricing, are subject to change by Terzo Power Systems, LLC and its subsidiaries at any time without notice.

WARNING: This product can expose you to chemicals including lead, which is known to the State of California to cause cancer. For more information, go to www.P65Warnings.ca.gov
